

## SUCCESS STORY

**Project type:** Replacement of old dough – cutting machine

**Company:** Bakery

An SME produces baked goods and confectionary items. The company decided to use a PolSEFF loan to modernise its bread production line by replacing a 30 year old dough-cutting machine.

The new machine will allow for an increase in production capacity of 33%, and for a 89% decrease in electricity consumption. After the project's completion, the company will receive an investment incentive of 10% of the loan amount.

### The Company

<b>Main activities</b>	Production of baked goods and confectionary items.
