

## SUCCESS STORY

**Project type:** Replacement of Chilling system  
**Company:** Fruit and Vegetable Processing company

A company which processes fruit and vegetables has decided to modernise its industrial building by using a PolSEFF loan to replace its chilling system.

This involves replacing old compressors with a new, more efficient N250VLD-HE compressor. This investment has increased production capacity by over 60.8%. The loan offers a grant component of 10% of the investment volume.

### The Company

Main activities	Storing and processing of fruit and vegetables
Project location	Adamów, Poland

### Project goals and main investment

Main investment	Installation of a N250VLD-HE compressor
Project goals	To modernise the chilling system by installing a new compressor.
