

SUCCESS STORY

Project type: Replacement of meat cart washing equipment
Company: Meat Processing Company

A meat-processing company located in northern Poland has decided to use a PolSEFF loan to replace its meat cart washing technology. The investment will allow for the modernisation of part of the production line.

The company will reduce energy consumption and lower energy and waste-disposal costs. This project will be granted with a 10% incentive payment of the investment value.

The Company

Main activities	Meat processing
Project location	Jastrzębie Pomorskie, Poland

Project goals and main investment
