

SUCCESS STORY

Project type: Replacement of metal bending equipment

Company: Boiler producer Company

A boiler producer in southern Poland is replacing metal-bending equipment with a PolSEFF loan to improve efficiency.

This investment will allow for a 5% increase in production capacity, for higher product quality, and for a decrease in energy consumption of 32%. The loan offers a grant component of 10% of the investment volume.

The Company

Main activities	Boiler production
Project location	Krosno, Poland

Project goals and main investment

Main investment	Replacement of metal-bending equipment.
Project goals	To increase production quality and production capacity by 5%, and to reduce energy consumption by 30%.
Investment size	€105,000

Expected results

Operational results	Annual energy saving of 32% (4,219kWh) Annual CO2 emissions decrease of 4 tonnes
