

## SUCCESS STORY

**Project type:** Replacement of metal-cutting machine

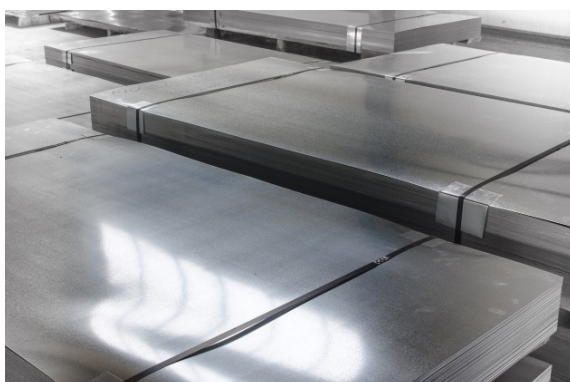

**Company:** Generator Producer

A generator producer in western Poland is replacing its metal-cutting machine through the use of a PolSEFF loan.

This investment will allow for an increase in production capacity of 90%, for increased product quality, and for a 89% decrease in energy consumption.

The loan offers a grant component of 10% of the investment financing value.

### The Company
