

## SUCCESS STORY

**Project type:** Replacement of production line machinery

**Company:** Roof tiles production Company

A roof tile production company in northwestern Poland has decided to replace its old roof-tile production line through a PolSEFF loan.

This investment will allow for a 9% increase in production capacity, for improved product quality, and for a 43% decrease in energy consumption.

The loan offers a grant component of 10% of the investment financing value.

### The Company

Main activities	Production of roof tiles.
Project location	Troszyn, Poland

### Project goals and main investment

Main investment	Replacement of a roof-tile production line.
Project goals	To reduce energy consumption, and to increase both product quality and production capacity.
Investment size	€96,000

### Expected results

Operational results	<ul style="list-style-type: none"><li>- Annual energy saving of 43%</li><li>- Annual CO2 emissions decrease of 2 tonnes</li></ul>
