

## SUCCESS STORY

**Project type:** Replacement of road-filling equipment

**Company:** Construction materials producer

A construction materials production company based in Kalisz has decided use a PolSEFF loan to replace a large proportion of its aggregate (road-filling material) production line.

The investment will expand production capacity by 253,000 tonnes annually, decrease unit production cost, and reduce energy consumption by 33%.

The loan offers a grant component of 10% of the investment financing value.

### The Company
