

SUCCESS STORY

Project type: Retrofit of a paper etui production centre
Company: Manufacturer of paper products

An SME specialises in the manufacture of paper products for restaurants. The company decided to use a PolSEFF loan to retrofit their existing paper etui manufacturing center, consisting of four machines, with a new custom-built machine.

The new machine will match the company's existing production level and decrease electrical energy demand by 37%. After the project's completion, the company will receive an investment incentive of 10% of the loan amount.

The Company
